

E-waste study

Name: _____

Class: _____

Date: _____

Electrical and electronic devices mean equipment that require electricity to function. When these devices break or are discarded, they become waste electrical and electronic equipment (WEEE), also called E-waste.

1. List the electrical and electronic equipment you find in your home:

	pcs		pcs		pcs		pcs
Mobile phone		Refrigerator		Mixer		Washing machine	
Tablet		Microwave oven		Blender		Tumble drier	
Computer		Coffee machine		Toaster		Electric toothbrush	
Television		Kettle		Immersion blender		Electric shaver	
Camera		Stove		Lamp		Fan	
Electric toy		Radio		Torch		Video game console	

Did you find other electronic/electrical equipment? _____

How many pieces of electronic/electrical equipment did you find in total? _____

How many lamps did you find in total? _____

2. Did you find any electronic/electric equipment that is no longer working or in use?

	Yes	No	Which device(s)?
Devices that work but are no longer in use			
Devices that don't work but could be fixed			
Devices that don't work and can't be fixed			

3. What is the most recent new electronic/electric device you have bought or received?

4. If you bought a new device to replace an old one, what did you do with the old device? Check the box corresponding to the most appropriate option.

I am still using it		I took it back to the store	
I don't use it anymore but haven't thrown it out		I sold it	
I threw it in the trash		I took it to a recycling station	
I gave it to somebody		Other, what?	

5. If you have stored electronic/electrical devices that are no longer working or not in use anymore at home, what is the reason for doing so? Check the box corresponding to the most appropriate option.

I don't know where to take the old device	<input type="checkbox"/>
I have thought of recycling, fixing or selling the device later	<input type="checkbox"/>
I keep the device just in case	<input type="checkbox"/>
I haven't thought about it	<input type="checkbox"/>
Other reason, please elaborate	<input type="checkbox"/>
I haven't stored any old equipment at home	<input type="checkbox"/>

6. What could you do yourself to reduce the amount of e-waste that is being generated?

7. Were you familiar with e-waste before? Yes _____ No _____
